DETAILED ACTION

1. Prosecution in this application is reopened in view of new grounds of rejection as set forth below.

Claim Rejections - 35 USC § 112

- 2. Claims 145 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- (a) In claim 145, the word "about" before "4" is indefinite because the parent claim has required at least 4 atoms, and therefore "about" renders the claim partially outside the scope of the parent because "about 4" could include a value of 3.

Claim Rejections - 35 USC § 102

3. Claims 105-107 and 131-143 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 2001/07484.

The claimed structure is shown in Example 2, middle of page 16.

4. Claims 144 and 146—188 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
